8. Statement of purpose	10
9. Final interview (20) + 10. Power point presentation at final interview (5)	20 + 5
Total marks	100

- The UG students are currently expected to fund themselves for program. This includes applying, paying for US visa and other expenditures incurred. The ballpark estimate currently is 4.5-5 lakh Indian rupees based on information given by UCLA Team.
- A total of five students will be shortlisted. The first three students will be selected.
- The next two will be waitlisted and will be able to go for the exchange program only if one of the top three drops out.
- Criteria 1-7 should be supported by photocopies of certificates.
- The students would need to make up for any loss of attendance / clinical posting which has been missed at KEMH during his/her absence. Their teachers will help them with this.

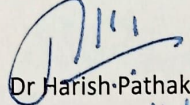

Selected students are encouraged to apply to MUHS and other agencies for funding for travel, stay, visa etc.

A short list will be made for the final interview and presentation. Students are then expected to apply for a US visa without which they will not be able to travel. Team UCLA will issue a letter to the US Embassy in Mumbai to assist with the visa process. Please note that the US visa has long wait times (upto a year currently).

The final selection of the students will be made by the Academic Committee of the institution and their decision will be final and binding.
