1. Purpose:

The objective of this standard operating procedure (SOP) is to prepare the site team for a clinical study sponsored by a pharmaceutical company.

2. Scope

This SOP is limited to describing the requirements that the research team should meet in setting up a clinical study after obtaining Institutional Ethics Committee approval. This SOP concerns all departmental personnel working in clinical research and should be followed by all those working on clinical studies involving human participants.

3. Responsibilities:

The Principal investigator, Co-investigator, Study Coordinator or any other appropriately qualified staff in the team, as delegated by the Principal Investigator, will be responsible for implementation of this SOP.

4. Applicable rules, regulations and guidelines
